PREFATORY NOTE

THIS seventieth yearly issue of the English Catalogue of Books comprises the titles (in duplicate—namely, under author and subject) of works published during 1906, also of some received too late for inclusion in the sixty-ninth issue.

Titles and index are in one alphabet. The main entry of each work begins with the author's surname (if given on the title page) in **heavy type**. As an index to these 'Author' records, the title, commencing with its most important word (which usually indicates the *classification* to which the work belongs) or with its first word, is repeated in the same alphabet, with that word in *italics*, which in the main entry is in **thick type**.

The 'Transactions' of Learned Societies are recorded in an Appendix.

The names and addresses of the publishers of Great Britain and Ireland will be found at the end of the volume, followed by those of the principal publishers in the United States and in Canada. The telegraph and cable addresses and telephone numbers have been added when known.

Hearty thanks are due to many publishers, secretaries, authors, and bibliographers who have assisted in making this book more correct and comprehensive than it otherwise would have been.

The Editor will be glad to have particulars of author, price, publisher, and month of publication of any work which may have been omitted. Information as to each book should be on a *separate* slip of paper or post card. It should be addressed to

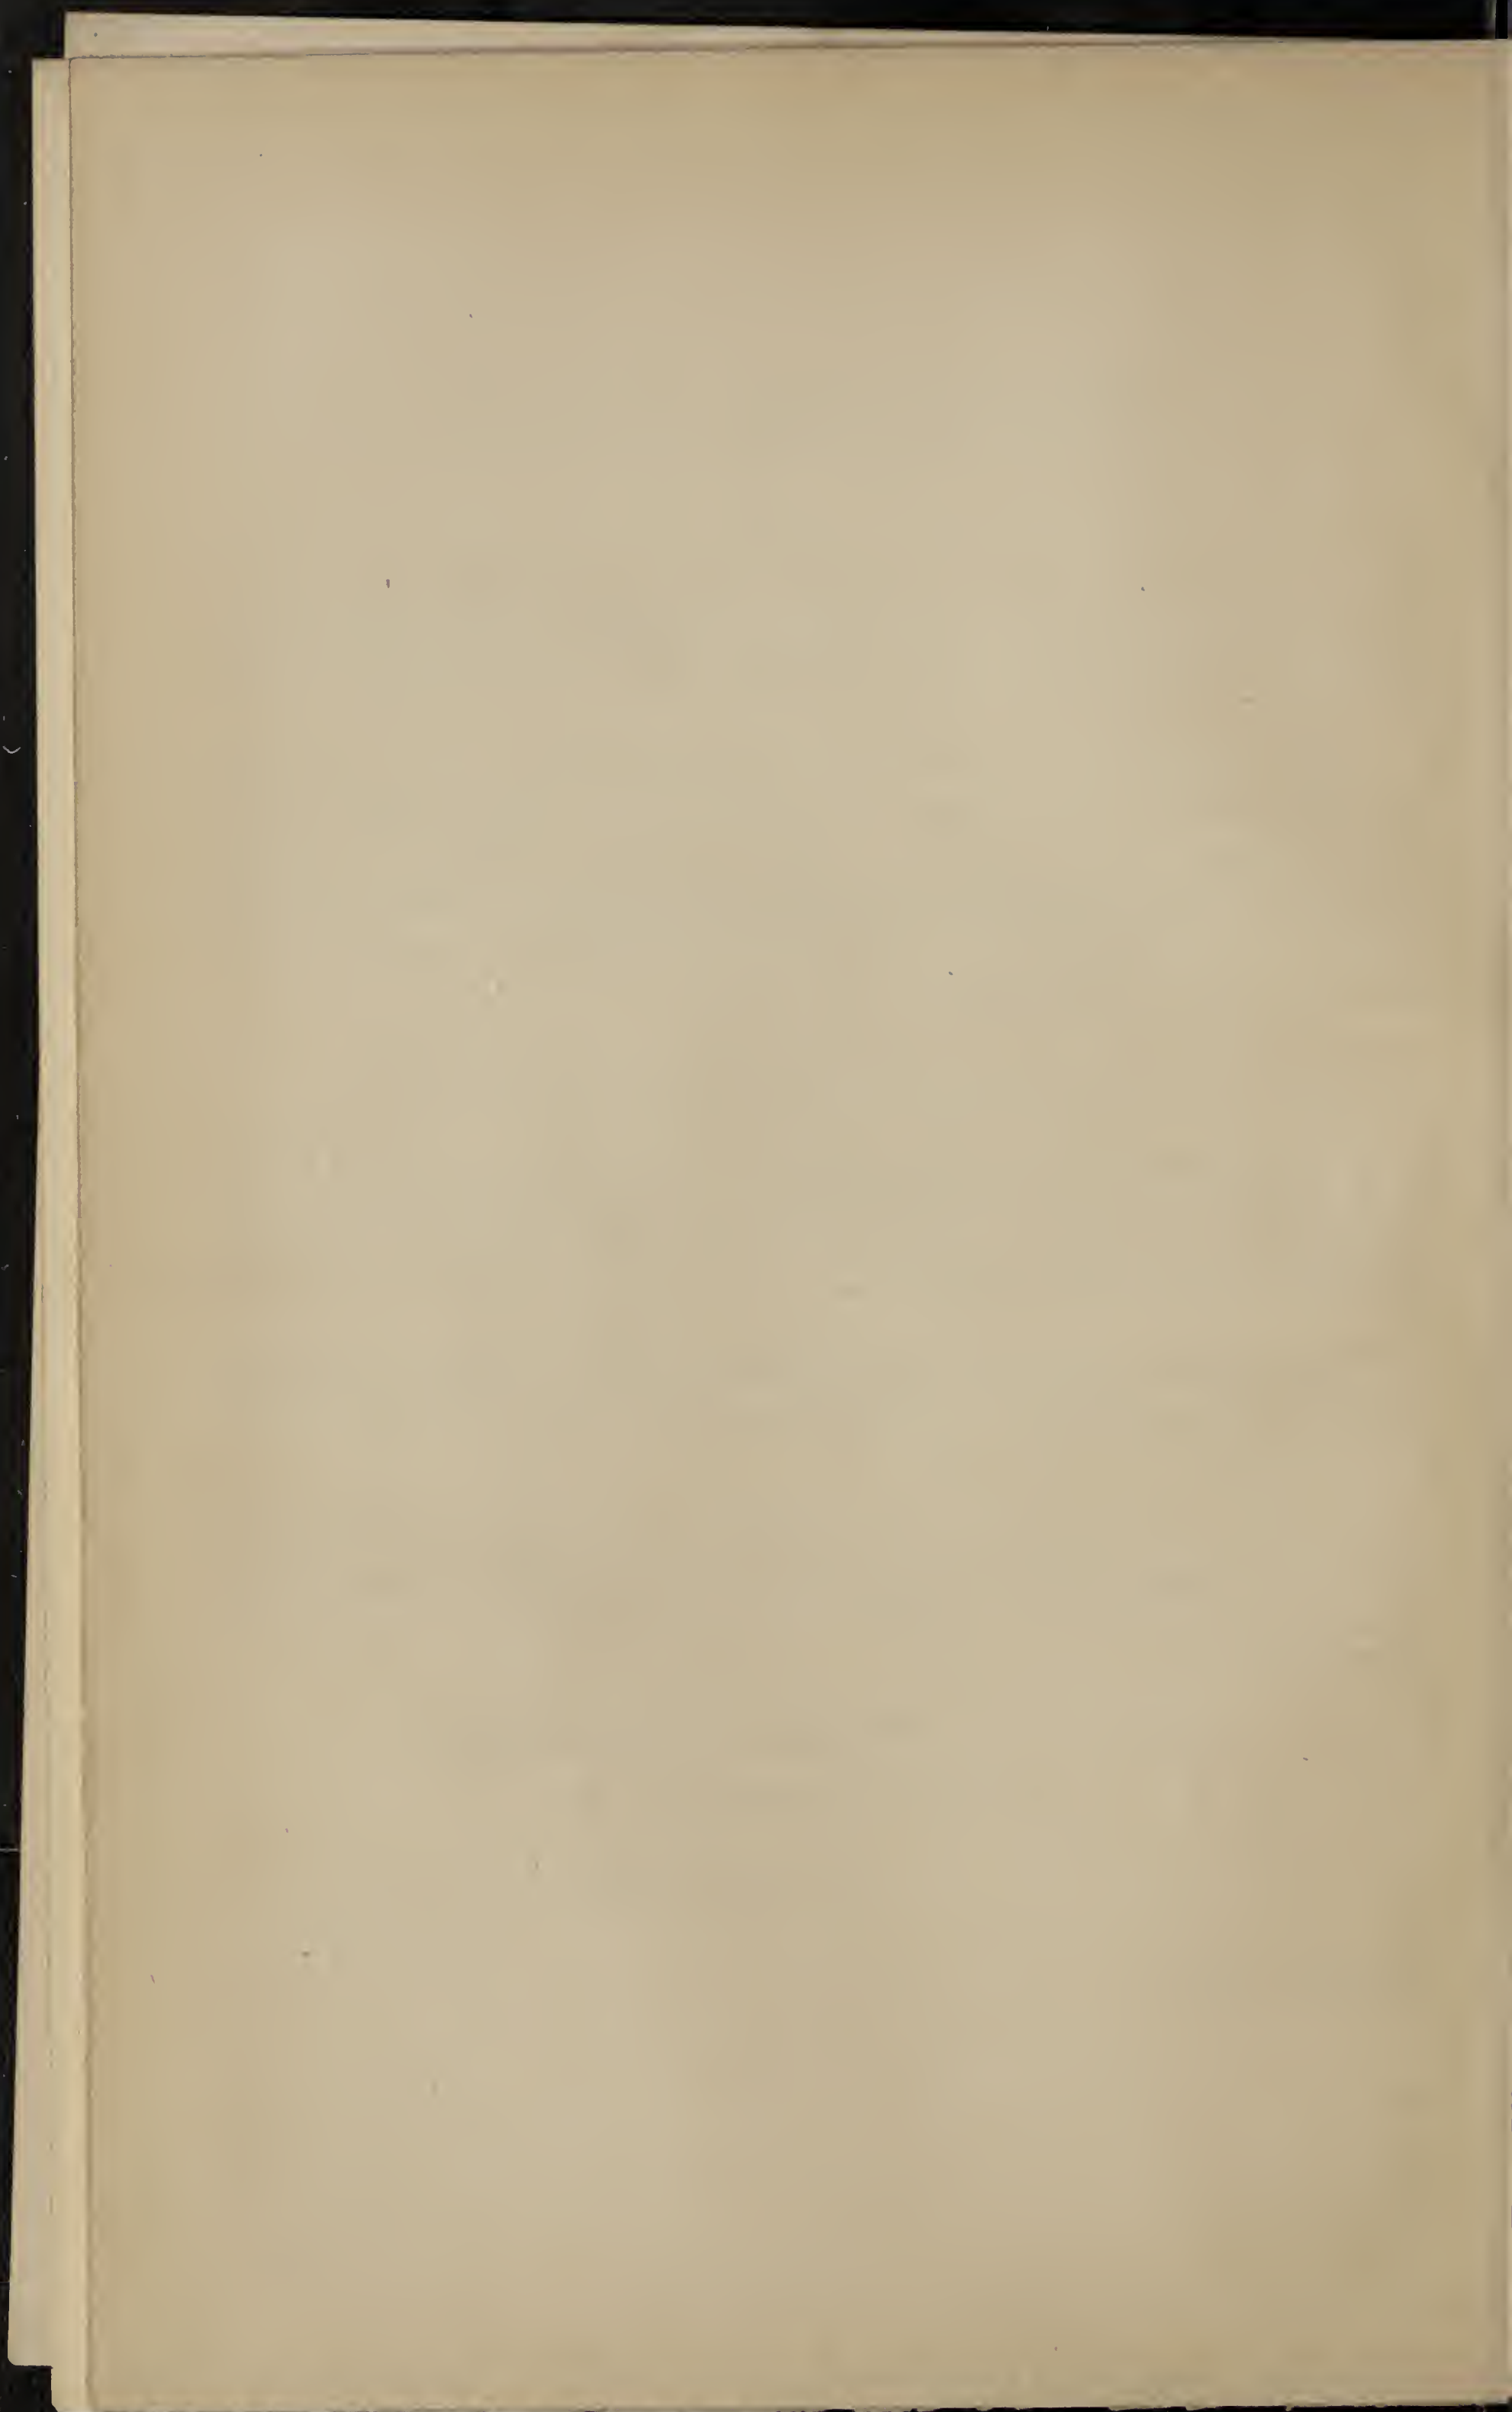

The Editor of The English Catalogue of Books,

Publishers' Circular Office,

St. Dunstan's House, Fetter Lane,

London, E.C.

January 15, 1907.

The Names, Addresses, and Telephone Numbers of PUBLISHERS are given at the end of this volume.

THE ENGLISH CATALOGUE 1906

DIRECTORY OF PUBLISHERS

Publishers have been invited to send us their Telegraphic Addresses and Telephone Numbers. Those sent will be found below between square brackets [], and separated from each other by a semicolon (;).

This list of Publishers, with their Addresses, has been principally compiled with a view to supplying information regarding the books in the 1906 English Catalogue. This will explain the inclusion of many firms in the list who can scarcely, in the strict acceptation of the term, be called Publishers, since the publication of books forms only an occasional portion of their business.
